Hi Alicia

I've been on travel all week. I'll be in Monday and I'll get to your questions then if that works for you.

Have s good weekend

Mike

Hi Mike,

I had been thinking about getting in touch to check on how the Columbia Falls Aluminum Smelter RI/FS is progressing, and then this morning was prompted by the news on KPAX that a company is eyeing the Columbia Falls Aluminum Smelter location for a proposed power transformer manufacturing plant. What do you know about that proposal? The article did not mention the site's Superfund status.

So, how is the RI/FS? When you expect to receive the data report from 2016 samples? And what the status is of 2017 field season work plan preparation? The Natural Resource Damage Program would like to be kept in the loop on both of those documents.

I hear you are in Denver. I hope it is warmer down there than in Montana this week!

Thanks,

Alicia Stickney
